

Partnership details

Web Development

Mobile Development

Team augmentation

Who are we?

We are Appsome Solutions - software development company from Poland specializing in building your next highly scalable web or mobile application with React and Node.js.

✓ How do we work?

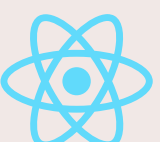

- understanding the product concept
- fully engaging and sharing tons of idea
- delivering the best quality software

✓ We specialize in

- Tech & Agile Consulting
- UI/UX Design
- Web Development
- Mobile Development
- Custom Software Development

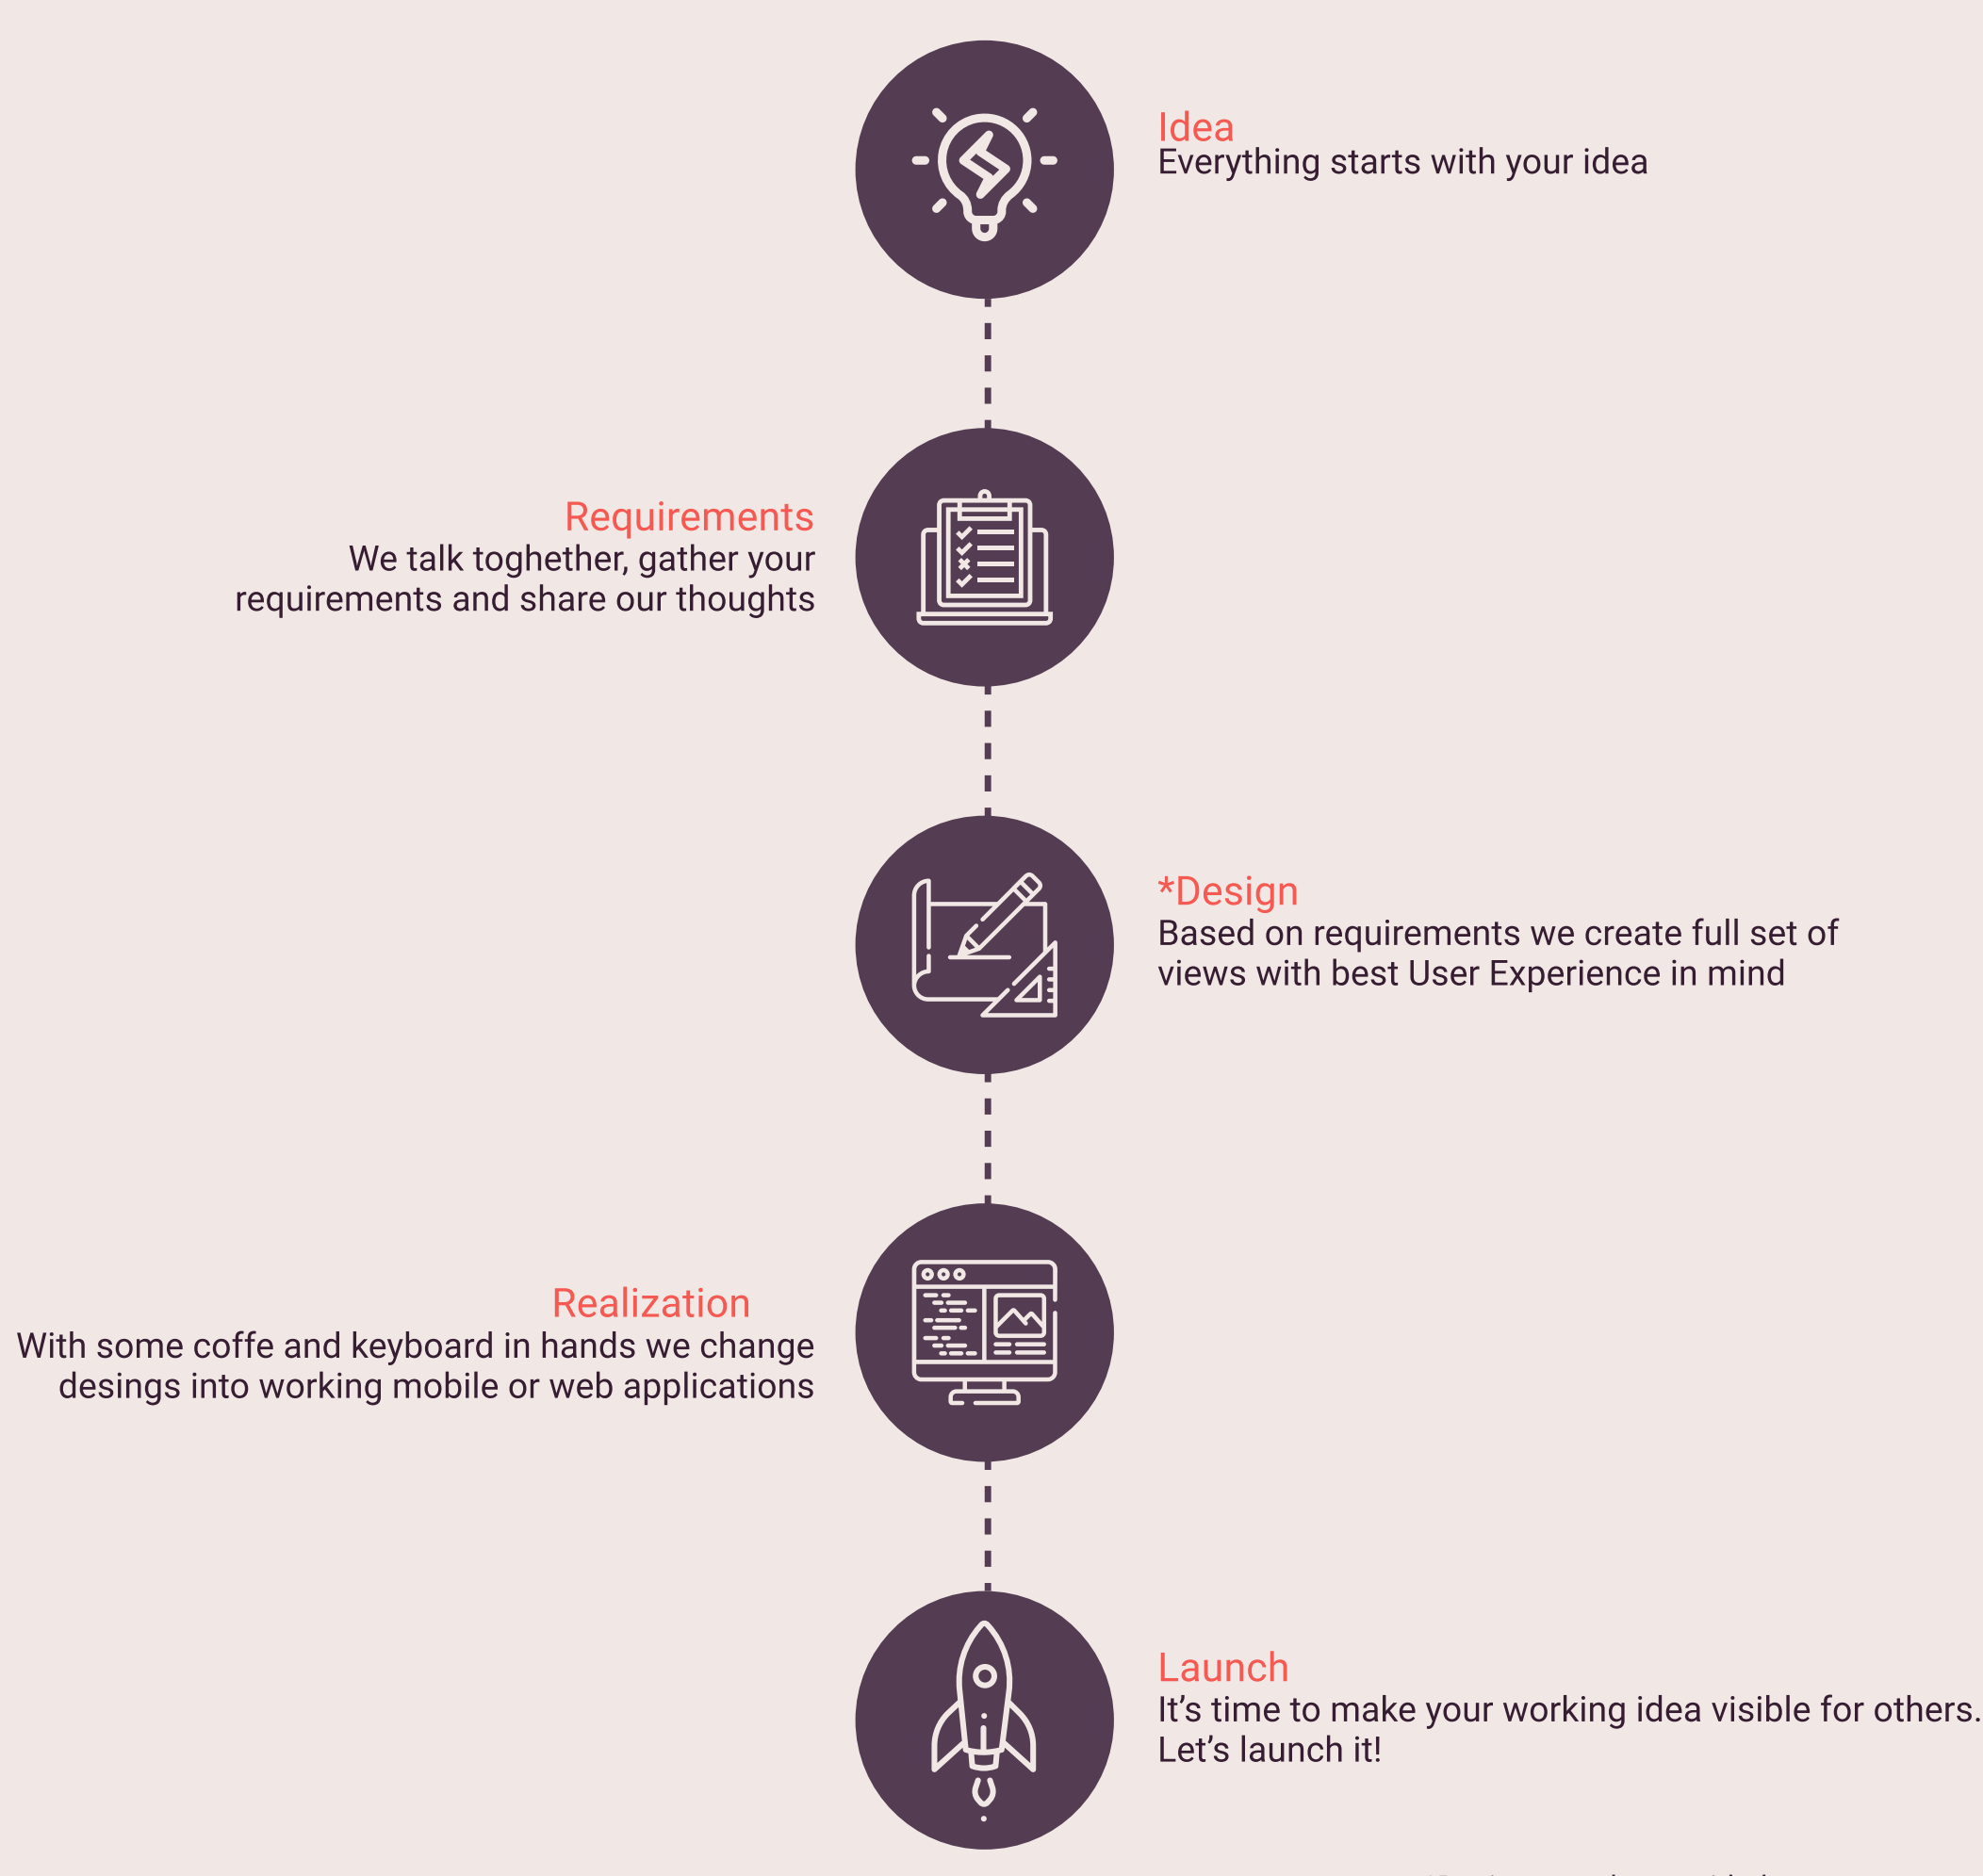

✓ Technologies we love (yes, we are geeks and we love technologies)

- React
- React Native
- Node.js

If you want to **augment** your **team**, create **MVP** or highly **scalable application** we are a perfect match for You!

The process

Partnership possibilities

Time & Material

- Both long- and short-term cooperation
- Development of complicated systems with a significant amount of variables
- Continual evolution of requirements
- Partnership-model agreement

Advantages

- High flexibility
- Lower hourly rates
- Superior control of product outcomes

Fixed Price cooperation

- Short-term cooperation
- Particular phases of the project
- Full product specification established before contract signing
- Additional pricing agreements on any changes to initial requirements

Advantages

- Full control of your budget

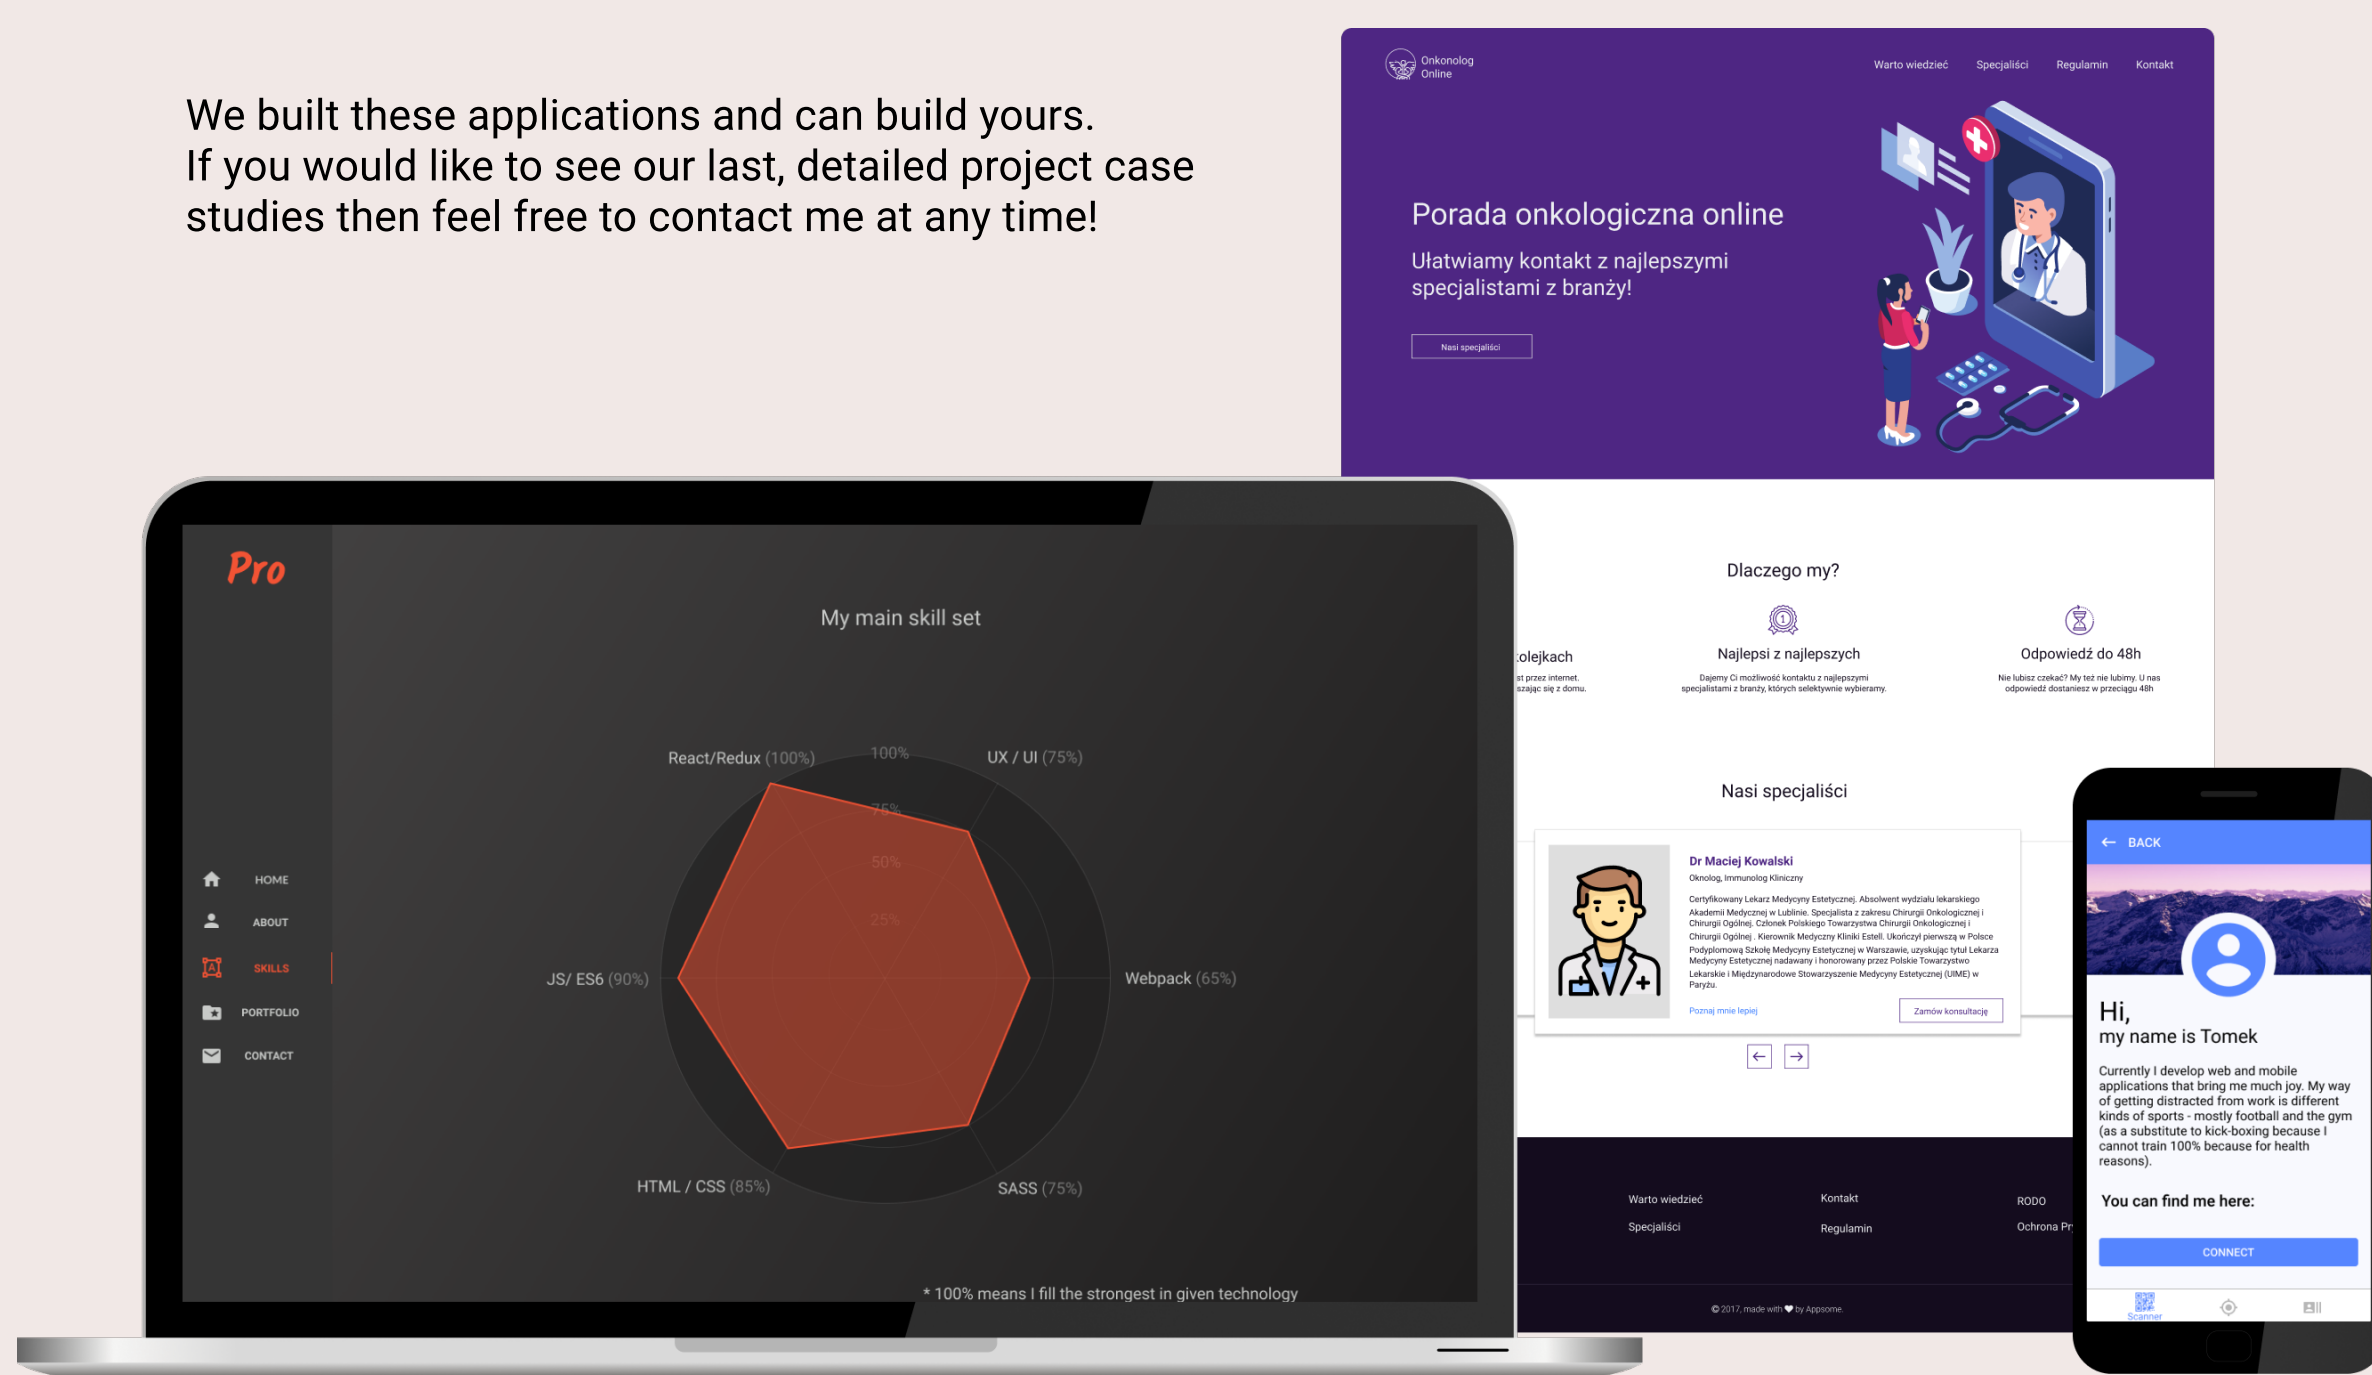

Team & pricing

- 3 x Senior Fullstack Developer - 32 USD net/1 dev hour
- 1 x Junior Frontend Developer - 13 USD net/1 dev hour

If you will choose fixed price cooperation then we estimate the time of a project and calculate the whole price accordingly.

Portfolio

We built these applications and can build yours. If you would like to see our last, detailed project case studies then feel free to contact me at any time!
